

Activity 1: In maths, we have been looking at maps. What do you pass on your way to school? Draw a simple, linear map to show your home, street, school and some landmarks you pass on your way. What do you pass first, next and last?

Activity 2: Go to [phonicsplay.co.uk](https://www.phonicsplay.co.uk) and play 'buried treasure' – you can choose Phase 2, 3 or 4.

Write the words from the coins in your book and add sound buttons. Then read them and decide if they are real or fake.

Challenge: Choose a real word and write a sentence containing that word.

Activity 3: This week, we have talked about sea pollution and some ways we could help. Create a poster to make others aware.
